REISSUE APPLICATION DECLARATION BY THE INVENTOR		Docket Number (Optional) PA235R1
---	--	-------------------------------------

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number US 5,912,882, granted June 15, 1999 and for which a reissue patent is sought on the invention entitled Method and Apparatus for Providing a Private Communication System in a Public Switched Telephone Network.

the specification of which

is attached hereto.

was filed on June 14, 2001 as reissue application number 09/881,410
6/14/01, 4/4/02, 10/14/02, 1/22/04, 9/21/04, 7/13/05, 10/1/08, 4/9/09, 11/16/09,
and was amended on 4/28/10, 6/10/10, 12/2/10, and 3/2/11
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below (Check all boxes that apply):

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

In claim 1, the element of "a plurality of eligible member user telephone sets," is an error under 35 USC 251 that unnecessarily limits the scope of the invention.

Every error in this patent which was corrected in the present reissue application, and which is not covered by the prior oath(s) and/or declaration(s) submitted in this application, arose without any deceptive intent on the part of the applicant.

This collection of information is required by 37 CFR 1.176. The information is required to obtain or retain a benefit by the public which is in the land by the USPTO to process an application. Confidentiality is governed by 35 U.S.C. 172 and 37 CFR 1.15 and 1.14. This collection is estimated to take an average of 0.5 hours to complete, including gathering, preparing, reviewing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments or the amount of time you require to complete this form should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.
